

Joint Symposium 2

Oncology and Theranostics Committee / EAU

Sunday, October 20, 15:00 - 16:30

Session Title:

Prostate Cancer Radionuclide Therapy in the Post Vision-Era

Chairpersons:

Daniela E. Oprea-Lager (Amsterdam, Netherlands)

Jochen Walz (Marseille, France)

Programme:

15:00 - 15:30 **Bertrand Tombal** (Brussels, Belgium): Systemic treatment landscape of Prostate Cancer

15:30 - 16:00 **Silke Gillessen** (Bellinzona, Switzerland): Oncological therapeutic options in Advanced Prostate Cancer

16:00 - 16:30 **Louise Emmett** (Sydney, Australia): PSMA radionuclide therapy: where do we stand?

Educational Objectives:

1. To learn about the armamentarium of Systemic therapy In Prostate cancer
2. To become familiar with the current oncological therapeutic options In Advanced Prostate cancer
3. To understand the current state of PSMA radionuclide therapy.

Summary:

This EANM-EAU Joint Session 2 on 'Prostate cancer radionuclide therapy in the post-Vision era' will provide us with an update on the latest developments and future directions in the field of prostate cancer imaging and management.

The different systemic and theranostic approaches in hormone sensitive and Advanced castration resistant prostate cancer will be presented by experts in the field. The presentations will be seconded by the Scientific proof, in order to objectively select and implement the optimal approach in clinical practice.

Key Words:

Prostate cancer; Systemic Therapy; Radionuclide Therapy; Oncological treatments
