

Special Track Session 14
Neuroimaging Committee

Debate

Wednesday, October 23, 09:45 - 11:15

Session Title

Fluid Versus PET Biomarkers in Neurodegenerative Disorders

Moderators

Van Weehaeghe (Gent, Belgium)

Cecchin (Padova, Italy)

Point of View: In Favor of Fluid Biomarkers

Anna Wojdala (Amsterdam, Netherlands)

Point of View: In Favor of PET Biomarkers

Alexander Drzezga (Cologne, Germany)

Educational Objectives

In light of neurodegenerative disorders and up and coming therapies:

1. Insight in fluid biomarkers, pro's, con's and added value/ appropriate use
2. Insight in Amyloid and TAU PET, pro's, con's and added value/ appropriate use

Summary

The debate will give the audience different perspectives on biomarkers: Experts in the field of fluid biomarkers and PET biomarkers will give information on the added value of the biomarkers and suggestions for appropriate use.

Key Words

Fluid biomarkers; Tau PET; Amyloid PET; Neurodegeneration
