

### Special Track Session 1

Oncology and Theranostics Committee

**Sunday, October 20, 08:00 - 09:30**

#### Session Title

**Debate: FAPI RIP FDG**

#### Moderators

**Johanna Enke** (Augsburg, Germany)

**Wolfgang Fendler** (Essen, Germany)

**Kim Pabst** (Essen, Germany): Point of View: FAPI rocks - FDG sucks

**Christophe DeRoose** (Leuven, Belgium): Point of View: FDG rules - FAPI blows

#### Educational Objectives

1. To be able to identify novel applications and important pitfalls of FAPI PET
2. To be able to identify key applications and pitfalls of FDG PET
3. To guide tracer choice for the oncologic setting

#### Summary

FDG is the backbone for PET in oncology. However, a new player – FAPI – comes into the game. We will debate current and future applications of novel FAPI PET and shed light on strengths and weaknesses of the old but gold FDG.

#### Key Words

FAPI; FDG; oncology
