

### Special Track Session 14

Neuroimaging Committee

**Wednesday, October 23, 09:45 - 11:15**

#### Session Title

**Debate: Fluid vs. PET Biomarkers in Neurodegenerative Disorders**

#### Moderators

**Donatienne Van Weehaeghe** (Ghent, Belgium)

**Diego Cecchin** (Padova, Italy)

**Anna Wojdala** (Amsterdam, Netherlands): Point of View: In Favor of Fluid Biomarkers

**Alexander Drzezga** (Cologne, Germany): Point of View: In Favor of PET Biomarkers

#### Educational Objectives

In light of neurodegenerative disorders and up and coming therapies:

1. Insight in fluid biomarkers, pro's, con's and added value/ appropriate use
2. Insight in Amyloid and TAU PET, pro's, con's and added value/ appropriate use

#### Summary

The debate will give the audience different perspectives on biomarkers: Experts in the field of fluid biomarkers and PET biomarkers will give information on the added value of the biomarkers and suggestions for appropriate use.

#### Key Words

Fluid biomarkers; Tau PET; Amyloid PET; Neurodegeneration
