

Special Symposium 4

EANM and EJMIMI

Wednesday, October 23, 08:00 - 09:30

Session Title

The Many Challenges in Scientific Writing

Moderators

Ruiqing Ni (Zürich, Switzerland)

Weijun Wei (Shanghai, China)

Programme

08:00 - 08:20 **Margret Schottelius** (Lousanne, Switzerland): Bottlenecks in translating ideas into the clinics.

08:20 - 08:40 **Andrew Scott** (Melbourne, Australia): The Australian model to design and finalize successful clinical trials.

08:40 - 09:00 **Laszlo Papp** (Vienna, Austria): Large Language Models: what is beyond the interface.

09:00 - 09:30 EJMIMI Awards and discussion

Educational Objectives

1. Apply the basic principles on how to design a clinical trial
2. Discuss the use of Large Language Models in clinical research
3. Describe the limits of translational research

Summary

Participants will have the chance to discuss with experts and peers three hot topics in scientific writing: clinical trials, large language models, and translational research. Speakers will facilitate discussions on these topics from the scientific writing point of view. A lively interactive discussion is expected. During the session, the EJMIMI most cited and best paper awards will be given.

Key Words

Scientific publication; Clinical trials; Large Language Models
